

Non-Contact Metrology Solutions

S_GL_10

About Us

SURAGUS GmbH is a German metrology specialist developing and manufacturing non-contact material testing solutions for thin film materials. Our EddyCus® systems are installed at customer sites on six continents and are serviced and distributed through a worldwide network of sales and service partners. We serve numerous industries applying thin films in a wide variety of processes.

Technology

SURAGUS utilizes a unique high-frequency, wide range eddy current technology. This wide range, high frequency combination enables rapid testing of both very low and highly conductive materials. Our EddyCus® measurement systems (Eddy Current Solutions) excel with high sample rates and in non-contact setups, and come with several industrial interfaces and user-friendly software.

Portfolio

SURAGUS' portfolio comprises hand-held devices, table-sized benchtop testing solutions, robot based systems and standard & customized inline solutions. Standard and customized sensors are used to tailor to a large number of non-contact testing tasks including the measurement of physical parameters and defect detection.

Values

SURAGUS is a customer-focused and technology-driven company. A long-term and result-driven mutual cooperation between our customers and partners is of the highest importance to us. Our interdisciplinary R&D team transforms latest advancements in microelectronics and sensor manufacturing into novel testing solutions for our customers.

Made and Engineered in Germany

Innovation Award by
 Free State of Saxony 2013
 1st Place

Applications

- ▶ Deposition (PVD, CVD, etc.)
- ▶ Annealing
- ▶ Tempering
- ▶ Doping
- ▶ Layer removal

Measurements

- ▶ Sheet Resistance [Ohm/sq]
- ▶ Metal Layer Thickness [nm, μm, mil]
- ▶ Emissivity
- ▶ Optical Density / Transmittance

Benefits

- ▶ Non-Contact
- ▶ High Accuracy
- ▶ High Sample Rates
- ▶ Measurement of Encapsulated Layers

Solutions

Portable

EddyCus TF portable

Single Point

EddyCus TF lab Series

Imaging

EddyCus TF map Series

Inline

EddyCus TF Inline Series

50 x 50 mm metal film with strong deposition profile

100 x 100 mm AZO with donut and side effect

300 x 300 mm ITO on glass with several defects

100 x 100 mm AZO on glass with homogenous film

100 x 100 mm artificially misplaced donut effect
